Dear Ms. Rogers,

In the best interest of the people of D.C., we kindly request that you fully disclose how Washington Gas will meet the District's climate goals, as delineated in the Climate Commitments Amendment Act of 2022.

Specifically, how will your company comply with the following goals:

- A 60% reduction in GHG emissions by 2030?
- 100% fossil-fuel-free buildings by 2045, including no new fossil fuel heat or hot water appliances installed by 2035?
- And carbon neutrality by 2045?

We look forward to your reply,
